

Is your home cold in the winter and hot in the summer? Want to save money on your heating and electric bills? We want to help you be more energy efficient.

SSCAC Energy Conservation Programs offer to eligible households:

- Free home energy assessment
- No cost home insulation and weather sealing
- No cost heating system repairs and replacement for eligible home owners
- No cost replacement of energy inefficient fridges, washers, dehumidifiers, and window AC units
- Free LED bulbs, advanced power strips, and more

You may qualify for this FREE program if you are an eligible fuel assistance applicant or receive a low income discount on your utility bill(s).

For more information call SSCAC's Energy Conservation Dept.
(508) 747-7575 x6253

If you meet the following criteria, you may call SSCAC at 508-746-6707 to apply for help with heating costs and weatherization.

# of household members	Yearly household gross income limit

** Income levels change annually

Make your home part of a clean and energy efficient future by installing a "mini-split" air-source heat pump. They provide year-round cost-effective benefits for both heating and cooling. By limiting your use of high-cost fuels, the transition to decarbonization will be one step closer!

The Town of Plymouth, Office of Community Development, has funds available to be used for housing rehabilitation loans to homeowners of low and moderate income for the purpose of making repairs related to health and safety issues (leaky roof, plumbing, rotted siding or windows, outdated electrical systems, failed heating systems, handicap accessibility, repair/replace failed septic systems, emergency repairs, etc). These are 2% interest, deferred payment loans, with the principal due upon sale or transfer of the property. For further information contact:
